IMPORTANT NOTICE

The purpose of this white paper is to present STOREDIG Shop and SDIG (Storedig Token) to potential token holders in connection with the proposed ICO. The information set forth below may not be exhaustive and does not imply any elements of a contractual relationship. Its sole purpose is to provide relevant and reasonable information to potential token holders in order for them to determine whether to undertake a thorough analysis of the company with the intent of acquiring SDIG. Nothing in this white paper shall be deemed to constitute a prospectus of any sort or a solicitation for investment, nor does it in any way pertain to an offering or a solicitation of an offer to buy any securities in any jurisdiction.

This document and information contained herein may not be sent and or addressed wholly or in part, directly or indirectly, to any person in the United States, New Zealand or the People's Republic of China, or any other jurisdiction in which it would be impermissible or restricted to offer, distribute, purchase, sell or retain cryptography tokens.

PROBLEM

Fake & unsafe items

Many digital product marketplaces do not check authenticity and security products sold in their stores. thus making buyers feel deceived by the product purchased, and sometimes there are many buyers who buy digital products, one of which is software, after the buyer installs the software, it turns out that the software contains viruses, malware, etc. that can damage the buyer's computer system.

Customer Services

By far the biggest complaint users currently have with existing online shop is poor customer support. The issues are many and include long times withdrawal fund for seller, Refund, login issues, unanswered support tickets and buyers and sellers need a professional customer support experience.

Difficulties in payment

Difficulties in payment are one of the biggest problems for buyers, many digital product marketplaces that only have 1 to 3 payment methods. one of them is credit card payment and payment between countries. not all buyers have credit cards, so it is very difficult for users to buy digital products they want. from this problem, disappointment arises.

Fake Review

In addition to payment problems, fraud problems are based on a fake review of a product. with a lot of fake reviews, make buyers feel disappointed for the items they buy because they do not match the description and so forth. because this review is very important in any online store that can make buyers feel confident with the product and decide to buy it.

INTRODUCING STOREDIG SHOP

STOREDIG is the next generation of digital product market platforms. STOREDIG The store will provide many features for buyers and sellers, such as payment channels with cryptocurrency (SDIG, BTC, ETH, BCH, etc.), full-time customer services, original reviews, original and safe products.

FEATURES

Website user friendly

As a digital product marketplace, we offer a simple and modern web site display, making users very easy to access and explore our stores without difficulty.

Secure payment

As a step to secure your funds, we use blockchain technology so users feel safe when buying and selling transactions in our shop.

Fast and reliable customer service

When users feel there are obstacles, we are ready to serve your complaints that you can send to email, chat services or ticket services and soon we may resolve your complaints.

SDIG Rewards

To provide your convenience in our store, to loyal users. Every month we give SDIG tokens that you can use to shop, claim discount coupons or advertise in our store.

No fees

There is no fee that we sell every item.

No Fake reviews

In order to increase buyer satisfaction and trust, we will select and review reviews that are inappropriate and incite buyers.

MARKETING MODEL

Event

We have planning to make event, holder event on our platform, everyone or every month for users. one of them **"Get Free Paid Product"**

Referral Program

In addition to large paid marketing drives, useful referral programs it has been implemented, we will give a 25% reference bonus if your referral buys products in our store.

Storedig Token

The Storedig Token being generated for the ICO will be tradable on any exchange willing to list it, and certainly on existing decentralized Ethereum token exchanges. Each holder of Storedig Token is involved with the success of the exchange, which will create a natural viral effect as more people buy, sell, or hold.

Storedig TOKEN

Storedig is a fully audited Ethereum based ERC20 utility token that is used for exchange fees on the Storedig Exchange. As an ERC20 token, Storedig Token can be traded on Storedig Exchange as well as any cryptocurrency exchange supporting ERC20 based tokens.
